Labor Economics II

Ken Burdett

The object is to investigate in depth some important topics in labor economics. Students will get a good feel for the areas to be covered by reading the following literature reviews.

I will hand out notes at most of the lectures, or put the notes on the web.

1. The Basics of Search Economics: One Sided Search
Notes by Randall Wright
Notes by Ken Burdett

2. Equilibrium Labour Market Models I
K.Burdett and R Wright, "Two Sided Search with Nontransferable Utility," with R.

3. Equilibrium Labor Market Models II.

4. Empirical Extensions

5. Search and Contracts

6. Marriage Markets
